SLOTTED ANGLE RACKS

APEX TECH STORAGE SOLUTION

Website :- www.apextechstorage.com

APEXTECH supplies prefabricated storage racks, shelves etc. as well and we can install customised shelving, and pigeon-hole racks, at the customer's place using heavy-duty APEXTECH slotted angles. APEXTECH shelving units are 20 & 18-gauge steel with load capacities of up to 630 lb (285 kg) per shelf. Our shelving can be used in multi-tier applications with access stairways and catwalks. Multi-tire or mezzanine shelving is one of our speciality areas, and we construct them two or three levels high.
